SUMMARY

Software Developer with a passion for the creativity and logic required to successfully create applications and solve programming problems. I bring a devoted and professional mindset to team environments.

WORK EXPERIENCE

100 Devs - Software Engineer   January 2022 - Present

thinkBig
- Worked with a team to provide a useful app for those with ADHD to have an accessible and easy-to-use study guide to follow along with the #100Devs training program, resulting in more students being able to successfully complete the program and prosper as software developers.

LaPorte County Sheriff's Office   June 2004 - Present

Jail Officer
- Ensured the protection of inmates, other officers, and the public from harm and damage, by observing the inmate population and intervening in emergency situations.

Field Training Officer (FTO)
- Provided instruction to new hires on policies and procedures, preparing them to work efficiently on their own.
- Mentored fellow officers, helping them learn new assignments.

Inmate Classification Officer
- Problem-solved the management of inmates by assigning and reassigning them between cell blocks, depending on their classification (charges, requirements, gang affiliations, etc.).

United States Army   July 1999 - November 2002

Soldier
- Trained to utilize multiple weapons. Qualified to clear various obstacles, including landmines to provide a safe pathway for other units.
- Schweinfurt, Germany - Provided security for off-post housing areas immediately after September 11, to keep soldiers and their families safe from potential terrorism.

VOLUNTEERING

Center Twp. Volunteer Fire Dept.   July 2004 - June 2005

Firefighter
- Supported medical first responders during emergencies to assist them in giving care to patients in distress, by carrying equipment and helping conduct CPR.
- Worked with a team to put out structure and vehicle fires to limit the damage to personal and public property.
